# SHADES OF GREY

Madison Maple Quick Silver

**Shades of Grey For Your HOME.** Now is the time to consider bringing some "shades of grey" into your home.

The color grey has been a trend for several years now. So instead of opting for white kitchen cabinets . . . choose grey painted cabinets.

# SHADES OF Grey

**Why Grey?** It's sophisticated, classic, refined, dignified, authoritative, elegant, cool, and futuristic. But some would say it's unsettling, depressing and probably a sign of our financial times. Others feel it's the color of intellect, knowledge, power, wisdom and victory. Whatever you think, the color grey is going to be around a while so why not embrace it...

What exactly is the color grey? Basically, it's a series of colors ranging between black and white. Grey can also be either cool or warm. Light, cool shades of grey will set the scene and are perfect to coordinate with many colors. Dark, warm shades of grey add drama and enhanced style to a room when combined with contrasting colors such as white or warm wood tones.

# Casual

Chiswick Maple White Truffle & Island features Roast

In this casual but sophisticated kitchen that blends elegance and comfort, the clean-lined Shaker-style cabinetry is balanced by its soft white color with chocolate glaze finish. Glass fronts on some wall cabinets further lighten the look.

# Elegance

The  
RIPLEY

# Rustic Flair

Madison Oak Cobblestone & Island features Golden Villa on Artisan Oak

Because rustic design is often aligned with the region where you live, bringing the outside in is a great way to add rustic flair to your kitchen. Consider installing cabinets made from wood of the surrounding area.

Rustic charm is all about retaining a natural look. In addition to wood, use other natural materials to bring the design full circle. Stone is a great choice for your countertops. Wrought iron fits with the rustic look, so incorporate some of it into your kitchen design with pot racks, recipe book stands and baker's racks.

## The Cummings HOME

Traditional design strives to make the kitchen feel less like a work horse and more like a cozy room in the home. Painted cabinetry speaks to traditional style, often because a color or a finish reflects a home's historical origin.

# Timeless + Traditional

Plantation Maple Tuscany & Chestnut Chocolate Island

Displaying collections and personal treasures is an important characteristic of traditional kitchen design. Glass-front kitchen cabinets let you showcase favorite dishes or sentimental heirloom items.

Current urban contemporary looks will be designed with a very open space in mind and often try to include many of today's best offerings of green products such as recycled glass backsplashes.

There are no limitations in this style, from metal countertops to the shiniest of finishes for this is the style that we make the unthought-of...thought-of

## Urban Contemporary

The unadorned style, Avenue, embraces the beauty of the wood, making it both a handsome focal point and a rich backdrop for a variety of room designs. The effect is thoroughly modern but with a down-to-earth warmth.

The vanity's clean, geometric lines and the glass vessel sink enhances the modern feel in this powder room.

# GLAZES

Glazed finishes accentuates the character of a door. Glazes consist of a contrasting color that is applied over a base stain, then hand-wiped to create hang-up of varying tones in detail areas.

# PENCIL GLAZES

Pencil Glazes create a clean accent on cabinet doors. Done by hand, pencil glazing leaves a soft highlight that is applied to the profiles and recesses on doors - not the entire surface. Creating an even, consistent appearance that does not give you the overall tonal effect that Glazing achieves.

# MEDITERRANEAN

Distressed finishes create warmth and a sense of history in your space. Prior to finishing, doors & drawer fronts receive random hand-applied distress marks, worm holes, and sanding on corners and edges. Glaze is then applied to accentuate the carved details of the cabinet door creating a one-of-a-kind "Patina".
